

ABOUT ME

Adrian Cox-Settles

My name is Adrian Cox-Settles and I am the owner of Diverse Interactive Learning (Math Does Matter LLC). I specialize in Mathematics Education and have been teaching, leading departments, and tutoring for over 20 years. In 2014, I was even named the Teacher of the Year by the National Technical Association for my accomplishments.

Mission Statement

Our mission is to reach students where they are and broaden their horizons. We want to unleash their capabilities and help them become lifelong learners outside of our sessions.

Through our sessions, we will:

- Encourage students to become active thinkers.
- Create students who are intrinsically motivated.
- Leave students with a sense of accomplishment by the end of each session.
- Foster environments that are conducive to learning.
